

JOB OFFER

Position in the project:	Postdoctoral researcher
Scientific discipline:	Optics, biophysics
Job type (employment contract/stipend):	Employment contract
Number of job offers:	1
Remuneration/stipend amount/month ("X0 000 PLN of full remuneration cost, i.e. expected net salary at X 000 PLN"):	up to 11 000 PLN gross/month (with a full-time job)
Position starts on:	12 January 2023 (and onwards, depending on the applicant's availability)
Maximum period of contract	31/12/2023
Institution:	International Centre for Translational Eye Research (Institute of Physical Chemistry, Polish Academy of Sciences)
Project leader:	Prof. Maciej Wojtkowski
Project title:	International Centre for Translational Eye Research (ICTER) (MAB/2019/12) <i>The Project/Centre is funded by the International Research Agendas Programme of the Foundation for Polish Science. It is a collaboration between the Institute of Physical Chemistry PAS and University College London, UK.</i>
Project description:	<p>The International Center for Translational Eye Research (ICTER) is a multi-investigator center for eye research related to imaging and biochemical techniques to support advances in understanding the etiology and treatment of human blinding diseases. Further information on the research priorities and current expertise of our Center can be found at http://www.icter.pl.</p> <p>ICTER is looking for candidates with a PhD degree experienced in physics (optics and photonics) and biomedical engineering. Candidates should be interested in translational research and developing new therapies to cure blindness or other diseases. The postdoctoral researcher will have a direct impact on lab development and its success in publishing in high-impact factor journals. The person will also be responsible for performing dynamic research to create a competitive research group. The position will be assigned to the Optical Imaging Group led by Prof. Maciej Wojtkowski, focused on developing new imaging techniques aiming at achieving speckle-less imaging based on full-field swept-source optical coherence tomography for diagnosis, screening and monitoring of blinding eye diseases.</p>
More information on the research agenda:	https://icter.pl/about/

Key responsibilities include:	<p>The job holder's responsibilities will be related to two-photon vision and two-photon imaging projects and will include, but not be limited to:</p> <ol style="list-style-type: none"> 1. Implementation and development of data processing algorithms (LabVIEW/Python/Matlab), 2. optimising measurement systems, 3. writing or extending acquisition software, 4. performing measurements, 5. data analysis, 6. writing publications and reports, 7. active participation in conferences.
Profile of candidates/requirements:	<ol style="list-style-type: none"> 1. PhD diploma in physics, photonics, engineering or a similar field at the moment of starting work within the Project, obtained not earlier than 1 January 2018 2. Experience in biophotonics 3. Experience in experimental work in the field of optics and psychophysics 4. Familiarity with LabVIEW, MATLAB, Python or C++ 5. Excellent communication and organisational skills 6. Analytical and critical problem-solving skills mindset 7. Proficiency in English, both spoken and written
Key evaluation criteria:	<ul style="list-style-type: none"> • competences of the candidate with respect to specific tasks in a research project • previous educational/scientific achievements of the candidate • awards and distinctions of the candidate
Required documents:	<ol style="list-style-type: none"> 1. CV (including a list of projects) 2. Cover letter 3. Copy of PhD diploma (or equivalent) or confirmed certificate of the expected date of obtaining the Doctoral degree. Please bear in mind that without a Doctoral degree, employment will not be possible
We offer:	<ol style="list-style-type: none"> 1. Full-time employment contract 2. Opportunity to work in an innovative scientific environment 3. International cooperation with experienced researchers 4. Competitive salary 5. Access to well-staffed core facilities
Please submit the required documents to:	<p>ictcr_jobs@ichf.edu.pl</p> <p>Kindly specify in the application topic: Recruitment no. MCBO 76/2022</p>
Application deadline:	<p>2 January 2023, 12 am GMT+2</p> <p>Successful candidates fulfilling the main eligibility criteria and qualifications will be invited for an interview, which will be scheduled between 2 - 5 January 2023. Competition results shall be announced by the 12 of January 2023.</p> <p>The International Centre for Translational Eye Research (Institute of Physical Chemistry PAS) is committed to employment equality (esp. European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers) and welcomes applications from all qualified candidates fulfilling the requirements specified in this announcement.</p>
