

JOB OFFER

Position in the project:	Electrochemist/Corrosionist (postdoc or technical staff)
Scientific discipline:	chemistry
Job type (employment contract/stipend):	full-time employment
Number of job offers:	2
Remuneration/stipend amount/month (*X0 000 PLN of full remuneration cost, i.e. expected net salary at X 000 PLN*):	Gross salary: 7 000 – 23 000 PLN per month (at current exchange rate 1 500 – 5 000€ per month); the details in each case depend on qualifications and experience, and the compensation is composed of the base salary, seniority addition, functional addition and project bonus). Read more about contributions in Poland at https://www.ncbj.gov.pl/en/hrcareer/contributions-poland
Position starts on:	September 1th, 2023
Maximum period of contract/stipend agreement:	2 years initial employment with extension after a positive evaluation
Institution:	NOMATEN CoE, National Centre for Nuclear Research (NCBJ)
Project leader:	Prof. Mikko Alava
Project title:	<i>This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 857470 and Foundation for Polish Science International Research Agenda PLUS programme grant No MAB PLUS/2018/8 co-financed by the European Union under the European Regional Development Fund the Smart Growth Operational Programme.</i>
Project description:	 Centre of Excellence in Multifunctional Materials for Industrial and Medical Applications <p>NOMATEN Centre of Excellence (CoE) is formed through a scientific partnership between the National Centre for Nuclear Research (NCBJ-Poland), the French Alternative Energies and Atomic Energy Commission (CEA-France) and the Technical Research Centre of Finland (VTT-Finland) with joint financial support from the Foundation for Polish Science (FNP) and the European Commission. NOMATEN focuses research on the characterization, analysis and development of advanced multifunctional materials, specifically those designed to work in extreme conditions, with primary examples being radiation, high temperature and corrosion.</p> <p>More about NOMATEN CoE and the detailed project descriptions at http://nomaten.ncbj.gov.pl</p>
Key responsibilities include:	<ul style="list-style-type: none">• Working on project related to magnetism for the functionalization of metallic materials surfaces and its effect on corrosion phenomena• Collaboration in project related to hydrogen retention in metals and alloys• Preparation of samples• Electrochemical measurements

	<ul style="list-style-type: none"> • Analysis of results • Preparation of publications
Profile of candidates/requirements:	<ul style="list-style-type: none"> • PhD or MSc (a position dependent on education level). • Expertise in electrochemical measurements (EIS, voltamperometry, or electrochemical scanning spectroscopy) (compulsory) • Good knowledge of basic of electrochemistry, corrosion or surface analysis science (compulsory) • Knowledge of synthesis of electrochemical oxidation, electrodeposition or synthesis of materials for catalysis (desirable) • Written and oral communication skills in English (desirable) <p>Key assessment criteria:</p> <ul style="list-style-type: none"> • Competence to carry out specific tasks in the project • The candidate's knowledge of electrochemistry with applications to metals and alloys • The candidate's research achievements • Other achievements (scholarships, awards, etc.) • Research experience
Required documents:	<p>The application must include the following documents in English:</p> <ol style="list-style-type: none"> 1. cover letter that explains the motivating factors for considering the position (max. 1 pp), 2. CV with complete publication list, 3. brief description of important scientific achievements and scientific outlook, 4. a list of 2 reference persons including their positions and contact details (e-mail address), 5. MSc/PhD diploma copy/scan:
We offer:	<p>Location: National Centre for Nuclear Research (NCBJ), ul.Andrzeja Sołtana 7, 05-400 Otwock, Poland (Suburb of Warsaw, efficient and free daily bus transport service provided).</p> <p>Work in international networks with research institutes and industrial companies.</p> <p>Access to the research potential of NOMATEN's three partners between NCBJ (Poland), CEA (France) and VTT (Finland).</p> <p>Some of the positions are for joint collaborative research with NOMATEN partners CEA (France) and VTT (Finland) and thus include extensive visits to the collaborating institution.</p> <p>Travel funds for participation in conferences and collaboration, attractive working conditions, atmosphere of teamwork, family-friendly environment with flexible working hours, support of an experienced local team in legal, financial and organisational issues as well as logistic support and advice related to working in Poland - enabling smooth relocation and equal opportunities.</p> <p>More information about offer: https://nomaten.ncbj.gov.pl/electrochemistcorrosionist-postdoc-or-technical-staff</p>
Please submit the following documents to:	magdalena.jedrkiewicz@ncbj.gov.pl

Application deadline:	August 11, 2023
For more details about the position please visit (website/webpage address):	<p>The National Centre for Nuclear Research is awarded by "HR Excellence in Research". Recruitment in NOMATEN is based on OTM-R system (Open, Transparent and Merit-based recruitment practices in Research Performing Organisations).</p> <p>Candidates may be asked to provide additional documents. In the selection process, short-listed candidates will be interviewed in person or remotely.</p>
Euraxess job/stipend offer (in case of PhD, postdoc, leader and young leader positions):	https://euraxess.ec.europa.eu/jobs/126423

As an attachment to your application please sign and enclose the following declarations:

I agree to the processing of my personal data included in this application for the needs necessary to carry out the recruitment.

INFORMATION CLAUSE ON PERSONAL DATA PROCESSING:

1. The controllers of the personal data processed during the recruitment process are:
 - 1) National Center for Nuclear Research, ul. Andrzeja Sołtana 7, 05-400 Otwock and
 - 2) Foundation for Polish Science, ul. I. Krasickiego 20/22, 02-611 Warszawa.
2. The data protection officer can be contacted by using the following address:
 - 1) Personal Data Protection Officer, National Centre for Nuclear Research, Sołtana 7, 05-400 Otwock, Poland
 - 2) iod@ncbj.gov.pl
3. Providing data contained in recruitment documents is a condition for applying for a job at NCBJ.
4. Processing of the personal data for the purpose of filling the position listed in this announcement and to conduct subsequent recruitment is done on the basis of expressed consents. You have the right to withdraw your consent at any time, without affecting the lawfulness of the processing based on consent before its withdrawal.
5. Your personal data will not be made available to other data recipients.
6. Your personal data will not be transferred to a third country or to an international organization.
7. No automated individual decision-making and profiling as referred in Article 22 (1) and (4) GDPR is done during recruitment conducted by NCBJ. This means that no decisions regarding job candidates are made automatically and that no job candidate profiles are made.
8. In the case you have been unsuccessful in applying for the position listed in this announcement and you haven't given consent to store the collected personal data in the NCBJ recruitment database, your data will be erased no later than 12 years from the completion of recruitment process, but no longer than the date of the end of the durability period of the project, which will find its basis in the provisions governing project financing.

9. You have the right to access your personal data, request its rectification or erasure. Filing a request to erase data is tantamount to withdrawal from the recruitment process. You have also the right to request restriction of processing in cases specified in Article 18 GDPR.

10. You have the right to lodge a complaint with a supervisory authority (President of the Office for Personal Data Protection) about unlawful processing of your personal data. The right to file a complaint only concerns the lawfulness of the processing of personal data, not the recruitment process.
